Re: Cape May County Water Quality Management Plan – Future Wastewater Service Area Map
Proposed Amendment to the Cape May County Water Quality Management Plan (WQMP)

* * * * * * * * * * * * * *

The purpose of this letter is to request a written statement of consent from your municipality/agency for the above-cited proposed WQMP amendment. State of New Jersey regulations (N.J.A.C. 7:15) require that all governmental entities, sewerage agencies, and BPU related sewer and water utilities that may be affected by, or otherwise have a substantial interest in, approval of the amendment proposal, shall be requested to issue a written statement of consent. In consideration of this requirement, the governing body of your agency/municipality is hereby requested to issue a statement of consent on the attached amendment proposal. A statement of consent by a governmental unit shall be in the form of a resolution by that unit's governing body.

Pursuant to N.J.A.C. 7:15-3.4, this written statement of consent is required within sixty days of your receipt of this letter. Enclosed, as an aid to you to ensure that the resolution is satisfactorily worded, is a "model" resolution. Should you determine that the governing body does not support the amendment proposal, it may submit a resolution to that effect, which shall specify the reasons why the amendment proposal is not supported.

Please send copies of the resolution to the following 2 parties:

Cape May County Planning Department
4 Moore Road – DN 309
Cape May Court House, New Jersey 08201
Attention: Brigitte Sherman

NJDEP – Division of Coastal and Land Use Planning
P.O. Box 420, Mail Code 401-07C, 401 East State Street
Trenton, New Jersey 08625-0420

Please be aware that if you do not submit the requested resolution, the DEP maintains the option of considering approval of the proposed amendment. Therefore, it is in your best interest to submit a resolution defining your position so that the DEP may consider it in their decision-making process on the amendment proposal.

If you have any questions on this matter, please feel free to contact me at 609-465-6875.

RE: Single Stream Recycling

Dear Mayor Glembocki:

The construction and conversion of the Cape May County Municipal Utilities Authority (Authority) Intermediate Processing Facility (IPF) to a single stream operation is proceeding in accordance with the originally developed schedule. The IPF conversion is expected to be completed during the last week of March 2013. Therefore, if you have not already done so, the Township of Dennis should make final arrangements to change the method of collection for IPF recyclables within your municipality to single stream commencing on Monday, April 1, 2013. Residents and businesses will also need to be advised to mix all their IPF recyclables placed at curbside into a single container starting on April 1st. If a resident does not have a large recycling container they may, of course, use more than one container for IPF recyclables, however, multiple containers will require more effort in the overall pick-up by the Township. In addition, data of the volume of recyclables collected from municipalities across the nation indicates that the highest increase in recycling occurs when large containers are utilized by the residents and businesses in the conversion from dual stream to single stream recycling. If you decide to urge your residents to purchase and utilize 64 or 96 gallon trash containers for their recyclables, the Township may also want to consider modifications to the collection vehicles utilized for recyclables to account for the heavier weight contained in the larger containers (e.g. tipper arms).

The Authority is currently preparing an extensive multi-media program to advise the County's residents and businesses regarding the transition to single stream separation of recyclables in their households and places of business commencing April 1, 2013. Roll out of the media outreach program by the Authority will not commence until March of this year in order to avoid confusion among our residents about the date when single stream collection will actually begin. The outreach program will also advise that additional materials will be eligible for recycling under the single stream program, such as soda, cereal and pizza boxes, as well as

yogurt, margarine and other plastic containers. The Authority recommends that each town also initiate their own education program regarding single stream recycling citing your specific local requirements. Your recycling coordinator will be appraised in the near future by the Authority regarding the information that needs to be conveyed to all our residents regarding single stream recycling. The Authority will also provide in the coming weeks a sample mandatory recycling ordinance for municipal consideration in an effort to address the new materials acceptable for recycling and single stream practices.

The Authority looks forward to this exciting opportunity to increase recycling as the downward trend in recycling rates has continued Statewide, including in Cape May County, over the last few years.

If you have any questions or suggestions regarding single stream recycling, please feel free to call me at any time.

Very truly yours,
